The introduction to mountain bike skills weekend is just that: it introduces riders new to mountain biking to its fundamental techniques. Mountain biking is not about hitting things - it's about riding with finesse and fluidity. This weekend will introduce you to the finesse of mountain biking. What will you get from it? New skills and the confidence to use them. One weekend of skills will give you hundreds of hours of safe fun mountain biking; exploring new trails; mountain bike touring; maybe even entering an event. Why Mount Beauty? It offers some of the best trails (for all levels of rider) in Victoria, and is at its best in Autumn.
